INFORMATION NOTE

Title: Traffic Calming List Update

Date Prepared: December 9, 2021

Report To: Committee of the Whole

Councillor and Role: Councillor Maggie Burton, Transportation & Regulatory Services

Ward: N/A

Issue: This information note presents current list of streets that are either eligible or not eligible for traffic calming measures. Also, previously implemented traffic calming projects are included.

Discussion – Background and Current Status:

Background

The City has an Annual Traffic Calming Program with a \$50,000 budget set annually to cover the cost of traffic calming projects. Typically, requests for traffic calming come from the residents to have their neighborhood streets with slow vehicle traffic, reduced non-local traffic and/or improved safety condition. City's Traffic Calming Policy provides a framework to handle these requests coming from the residents guiding on what streets to consider for traffic calming measures and how to set their priority.

For any street to be eligible for traffic calming, it should pass all the eligibility criteria set in the City's Traffic Calming Policy. Then, each eligible street is scored using a set of factors related to their traffic and environment conditions set in the policy. Those streets that pass the minimum threshold point of 30 are ranked, determining their priority for implementation. The Annual Traffic Calming Program fund is utilized to implement traffic calming projects starting with those ranked at the top.

Completed Projects

The following **Table 1** shows the list of streets that were considered for implementing traffic calming measures in the past. Among them, four streets didn't have enough public support to implement the measures, these are: Pine Bud Avenue, Doyle's Road, Quebec Street and part of Great Eastern Avenue.

Table 1: List of Completed Projects*

S.N.	Project Location	Permanent Installation	Temporary Installation	Status	Remarks
1	Old Topsail Road	2013		Completed	Speed cushions and raised crosswalks
2	Carrick Drive	2013		Completed	Speed cushions
3	Southside Road	2014		Completed	Speed cushions
4	Rotary Drive		2016	Completed	Speed cushions
5	Great Eastern Drive		2017	Completed	Temporary roundabout
6	Pine Bud Avenue		2018	Not implemented	No support for permanent installation
7	Viscount Street	2018		Completed	Speed cushions
8	Winter Avenue	2018		Completed	Speed cushions
9	Carnell Drive	2018		Completed	Speed cushions
10	Larkhall Neighborhood	2021		Completed	Bump-out at the school/turn restrictions on Weymouth
11	Airport Heights Dive	2016		Completed	Bump-out
12	Bennett's Road		2018-2021	Completed	Raised crosswalk
13	Southside Road	2022	2021	Tender completed	Permanent speed cushions to be implemented in 2022
14	Quidi Vidi Village		2021	Completed	Linked to Inner Gut pilot project
15	Doyle's Road			Not implemented	Initial survey didn't show enough public support
16	Quebec Street			Not	Initial survey didn't show
10	Quebec Street			implemented	enough public support
17	Exmouth Street	2020		Completed	As part of Larkhall neighborhood work, turn restrictions have been applied
18	Weymouth Street	2020		Completed	As part of Larkhall neighborhood work, turn restrictions have been applied
19	Linegar Avenue	2018		Completed	A part of the street was completed in the past capital works project
20	34 Ladysmith Drive	2021		Completed	Bump-out installed at Kiwanis street

S.N.	Project Location	Permanent Installation	Temporary Installation	Status	Remarks
21	Great Eastern Avenue between Lady Smith Drive and Petite Forte Drive	2017		Not implemented	Part of 2017 Pilot Project area, but was not implemented fully due to insufficient public support.

^{*} The table is up to the date of this note preparation time.

Current Status

For the streets that have requested traffic calming, there are a total of 41 streets eligible. As mentioned previously, when it comes to utilizing the traffic calming budget, sites are selected based on their priority in the list. Accordingly, the top 10 sites are selected for implementation this year (**Table 2**). In addition, Downing street is included in the same list as there is Streets Rehab work planned for this street next year. Whenever, a rehab work is planned for a street in near future, and if that street is eligible for traffic calming, then priority is given to it to avoid the redo work. This strategy is taken to minimize the overall implementation cost for traffic calming projects as well. The project cost for these specific rehab related streets would be covered by the Streets Rehab project budget. The remaining 30 eligible sites shown in **Table 3** are for future implementation.

Table 2: Eligible Streets Considered for Implementation (Process ongoing)

Rank	Location	Score	Status
1	University Avenue	69.0	Public survey to be distributed
2	Old Bay Bulls Road	57.2	Public survey to be distributed
3	Baird Place	46.0	Public survey to be distributed
4	Frecker Drive between Duntara & Harrington	46.0	Public survey to be distributed
5	Ennis Avenue	44.1	Public survey to be distributed
6	Quidi Vidi Road	44.0	Public survey to be distributed
7	Empire Avenue between Welland and Blackmarsh	43.0	Public survey to be distributed
8	Warford Road	42.5	Public survey to be distributed
9	Gleneyre Street	41.1	Public survey to be distributed
10	Dunlea Street	40.7	Public survey to be distributed
11	Downing Street	31.7	Public survey is ongoing, if there is enough public support, implementation will be planned together with road rehab

Table 3: Eligible Streets Considered for Future Implementation

Rank	Location	Score
1	26 Craigmillar Avenue	39.4
2	66 Quidi Vidi Village Road* 38.0	
3	Toronto Street	38.0
4	Argyle Street	37.7

^{*} The table is up to the date of this note preparation time.

Key Considerations/Implications:

1. Budget/Financial Implications:

This program currently has \$89,446.22 available, which includes budget from previous allocations. Considering the current market prices, a sample cost estimate (15% tax included) is noted below:

- Temporary installation (Installation and removal): a set of speed cushions consists of 3 units at \$1,800. For a road segment of 450- 500 meter length, 3 sets of speed cushions would be required (9 units total), the estimated cost then is \$5,400 on the assumption that the City owns the speed cushions (If the City has to purchase new units, the cost per unit would increase by \$1,010 per unit).
- **Permanent installation:** for a set of speed cushions consisting of 3 units is \$4,650. For a road segment of 450-500 meter length, 3 sets of speed cushions would be required (9 units) the estimated cost then is \$13,950.

Based on the above cost estimates for labor and material, one road segment (9 units) would cost:

- \$19,350 excluding the cost of purchasing the temporary units.
- \$28,440 including the cost of purchasing the temporary units.

Currently, the City has **45 units** of temporary speed cushions. This will leverage the implementation of temporary traffic calming measures for up to 5 road segments. For the City to fully implement traffic calming on 5 road segments on an annual basis the estimated cost would be **\$96,750** (this includes both temporary and permanent speed cushion installations).

If the City wishes to implement traffic calming on 10 road segments per year, then the annual budget would need to be increased by approximately **\$193,500** (with the first year of implementation requiring an additional **\$45,450** to purchase the extra 45 temporary speed cushion units).

Accordingly, the current annual allocation of \$50,000 will be sufficient for approximately two road segments. If we target to complete 5 or 10 road segments for implementation, then the annual budget of \$100,000 or \$200,000, respectively, would be required. With such a long list of eligible streets, increasing the budget would be the best way to expeditiously get through the list.
