Staff informed the Built Heritage Experts Panel that Wild Things were looking to reinstate a mural on the front façade of the building. A recommendation from the BHEP would be required in advance of the item going forward to Council for approval. The Panel would generally discourage painting over brick, but as the façade is already painted, it would be merely the addition of an applied finish atop an existing applied finish and would have no negative impact on the character defining elements of the building. The Panel had no concerns with the proposed application.
